Wall Bar

Mark two points, using a ruler and a spirit level. Distance 755 mm.

Drill two holes $\text{\O}6$ mm, and insert the included wall plugs, then the screws.
The screws should be placed with a distance of approximately 5mm, from the head to the wall.

Place the large hole over the screw and gently push down the Wall Bar until it locks in place.
Adjust the screw accordingly to make sure the bar seats securely in the slot.

Parts

- 2 x 5 x 60mm screw
- 2 x 35mm Universal plugs

WARNING!

Incorrect assembly and installation of the Wall Bar can cause damage to the attached equipment and its surroundings. The included universal plugs and screws may, in rare instances, not be suitable for your wall. Use screws and plugs suitable for your walls. If you are uncertain, seek professional advice.
